

# Assignment 1

Front-end Bridge, Web Development 2017

In this mandatory assignment, you will work with visual communication through typography, colors and images.

You must design 3 *style tiles* with different look and feel, that each communicate a specific set of values/emotions. You are free to make your own interpretation of the values – but remember, you design for other people, not yourself!

The 3 value-sets are:

Style tile 1	Style tile 2	Style tile 3
Childish Vibrant Happy	Simple Conservative Trustworthy	Romantic Feminine Classy

Make the 3 style tiles using Photoshop, save them as JPG and put them all in one single PDF before you hand-in on Moodle.

Deadline is 29/9 at 6:00.
